The EMIDEC 2400 computer: references.

This section requires more work.

For a brief history of EMI's computing activities, see CCS M1X5 from which the following time-chart of hardware design activity is taken:

	1954	***1955***	***1956***	***1957***	***1958***	***1959***	***1960***	***1961***	***1962***	***1963***
CP407, then BMC computer										
EMIDEC 1100										
EMIDEC 2400										
EMIDEC 3400										

. General system information on the EMIDEC 2400 is covered in the following references:

1. Ron Claydon, *Early Computer Developments at EMI.* Resurrection (the bulletin of the Computer Conservation Society), Number 16, Christmas 1996.

2. Emidec 2400 Data Processing System: general description. Undated 8-page brochure issued by EMI Electronics Ltd. Computer Division, Hayes, Middlesex. (Printer's reference code: ES17/1064/5M/360/BP).
